# Extension Description

The Tiered pricing by percent extension allows you to set Tier Prices as a fixed price or as a percentage discount (%) of the product price.

When adding or editing a product from magento admin you can see options like below.

The screenshot shows the 'Prices' configuration page in Magento Admin. On the left is a sidebar with 'Product Information' categories. The main content area is titled 'test new import (Test)' and includes a toolbar with 'Back', 'Reset', 'Delete', 'Duplicate', 'Save', and 'Save and Continue Edit' buttons. Below the toolbar is the 'Prices' section with a 'Create New Attribute' button. The 'Price \*' field is set to 25.99 [USD]. The 'Group Price' section has a table with columns: Website, Customer Group, Price, and Action. The 'Special Price' field is empty [USD]. The 'Special Price From Date' and 'Special Price To Date' fields are empty [WEBSITE]. The 'Cost' field is empty [USD]. The 'Tier Price' section has a table with columns: Website, Customer Group, Qty, Price / Percent, Type, and Action. The table contains six rows of tiered pricing rules. A dropdown menu is open over the 'Type' column, showing 'Fixed Price' and 'Discount Percent' options.

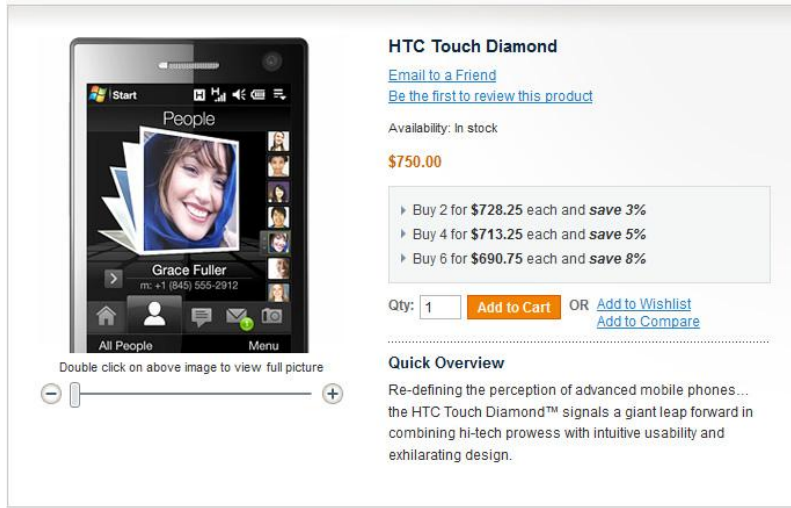

Website	Customer Group	Qty	Price / Percent	Type	Action
All Wei	General	3 and above	5.00	Disco	[X]
All Wei	General	6 and above	10.00	Disco	[X]
All Wei	General	9 and above	20.00	Disco	[X]
All Wei	NOT LOGGET	3 and above	5.00	Disco	[X]
All Wei	NOT LOGGET	6 and above	10.00	Disco	[X]
All Wei	NOT LOGGET	9 and above	20.00	Disco	[X]

There is now a choice to have it used “fixed price” or additionally use “percentage”. This is also the case to do bulk updates like below

The screenshot shows the 'Update attributes' page in Magento Admin. The sidebar on the left has 'Products Information' categories, with 'Tier Prices' selected. The main content area is titled 'Update attributes' and shows a 'Tier Prices' section with a table. The table has columns: Website, Customer Group, Qty, Price / Percent, Type, and Action. It contains two rows of tiered pricing rules. A dropdown menu is open over the 'Type' column, showing 'Fixed Price' and 'Discount Percent' options.

Website	Customer Group	Qty	Price / Percent	Type	Action
All Wei	ALL GROUPS	5 and above	15.00	Disco	[X]
All Wei	ALL GROUPS	10 and above	25.00	Disco	[X]

And once the product is setup and saved it will show like this on the frontend.
